DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 10/28/2003 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the citation to the patent applications is improper. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Specification

2. The disclosure is objected to because of the following informalities: In paragraph 13, the serial number of the co-pending application is needed.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3671

4. Claims 1-5, 10, 11, 17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Gaul et al. 3,466,857.

Gaul et al. discloses a cotton harvester having an upright receptacle (51 and 39) and a separation hood (40), which includes:

- a delivery system (29) opening into the hood (fig. 4)
- a separation grate (includes grate 86)
- a rear deflector (last grate 86 in fig. 4)

Regarding claim 2, the hood includes an adjustable air outlet (last opening 87 in fig. 4)

Regarding claim 3, the cotton harvester is twice as big as the receptacle (fig. 3) and the receptacle includes a lower cotton metering portion (44).

Regarding claim 4, the hood includes a forward deflector (first grate 86 in fig. 4).

Regarding claims 5, 11 and 19, the receptacle includes first and second sidewalls (83 and back wall of 39). The grate 86 extends generally horizontally between the walls (Fig. 4).

Allowable Subject Matter

5. Claims 6-9 are allowed.

6. Claims 12-16, 18 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3671
